

Eric Wang
Global Business Director, Photovoltaics
DuPont Photovoltaic & Advanced Materials

In February 2017, Eric Wang was named as Global Commercial Director of DuPont Photovoltaic Solutions, the leading global supplier of specialty materials to the solar industry. He has full responsibility for the marketing, sales and future growth initiatives of DuPont photovoltaic materials.

In December 1995, Eric Wang joined Du Pont China Holding Co., Ltd. as a marketing representative for Dacron® fibers. In 2000, he was transferred to DuPont Advanced Fiber System sales team. In 2003, he was appointed as Nomex® China Sales Manager for DuPont

Advanced Fiber System and was also recognized with the DuPont Corporate Marketing Excellence Award. In 2006 and 2009, he was appointed China Country Manager for DuPont Advanced Fiber System and DuPont Protection Technologies.

In 2010, Eric Wang was appointed Growth Initiatives Director for Du Pont China Holding Co., Ltd. and China Director for DuPont Electronics and Communications in 2011. In October 2013, he was appointed Global Sales Director for DuPont Photovoltaic Solutions.

At present, Eric Wang is Director of Electronic Materials DuPont Dongguan Co., Ltd. and DuPont (Shanghai) Electronic Materials Co., Ltd. For the past few years he has made great contributions to advance the technology of key photovoltaic materials in the global market.
