Metal Lamination Case Study

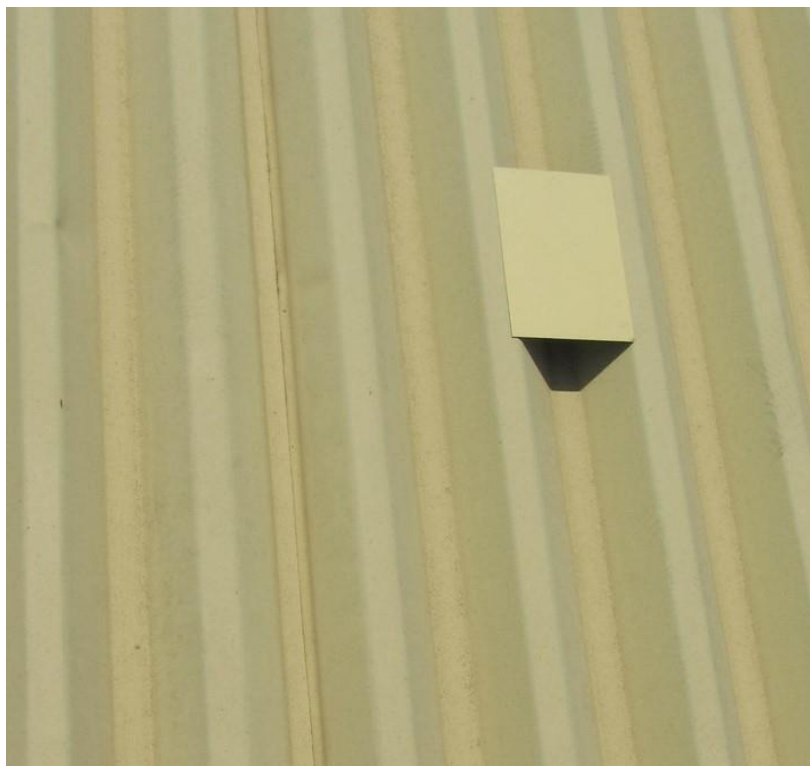

A car repair and maintenance facility in the coastal city of Chiba, Japan, located near the Nippon Steel plant, is the country's oldest installation by Nippon Steel. Built in 1979 these photos were taken in 2014 and show the roofing laminated with Tedlar® PVF film type TLY15BL3. A sample of metal laminate in the same color was placed over the existing roofing to demonstrate the exceptional durability, color, corrosion and dirt resistance of Tedlar® film, 35 years later. Manufacturer partner: Nippon Steel

Area of Application: Building & Construction

Year of Construction: 1979

Location: Chiba, Japan
