USA FDA – Food Additive Status

AmberLite™ XAD™7HP Polymeric Adsorbent

AmberLite™ XAD™7HP Polymeric Adsorbent is an aliphatic acrylic polymeric adsorbent. We have reviewed the use of AmberLite™ XAD™7HP with the U.S. FDA specifically for the extraction of a dietary supplement from plants. The FDA concluded that the use of AmberLite™ XAD™7HP Polymeric Adsorbent in this repeat use food-contact application was acceptable and did not require a formal amendment of the food additive regulations. The FDA determination applies to the use of AmberLite™ XAD™7HP in a food-contact application only and not to the use of the plant extract as a dietary supplement.

Use of these products is subject to good manufacturing practices and any limitations which are part of the regulations. The regulations should be consulted for complete details.

Please be assured we are committed to providing high-quality products and service to our customers. If you have any questions or require further information, please contact us via our website at <http://dupont.com/water/contact-us>.
